

We don't CLAIM we are better... WE CAN PROVE IT!

What sets Oryx apart from the *typical** claims adjuster?
TIME, TRAINING & TOOLS

TIME

Oryx construction claims adjusters maintain a maximum case load that is 20% less than your *typical** TPA. A lower case load enables our adjusters to spend their time and expertise for the best and quickest resolution.

TRAINING

Oryx construction claims adjusters are required to maintain a minimum of two professional designations. Experience ranges from OSHA to HR and all have IRMI's CRIS designation. Certainly not required and not *typical** of other TPA's.

TOOLS

TPA's handle claims in a reactive manner—*typical**— The Oryx construction claims department is proactive minimizing claim costs by providing insured specific return-to-work programs, fraud detection, investigative services and litigation management.

We don't CLAIM we are better... We are.

Oryx Insurance Brokerage, Inc. is a Program Administrator located in Binghamton, NY. The company is a leader in underwriting, claims administration and loss control for the construction industry. Oryx works with appointed independent insurance agents located within the Mid-Atlantic States.

Further information on Oryx can be found at www.oryxinsurance.com or by calling 888-462-6799.

**Warning: Oryx claims results are not typical of the construction insurance industry.*
